## SOLO 1 Auger Spreader Feeder

The SOLO 1 is a proven auger type feeder, utilising a screw mechanism that delivers food pellets to a spinner plate. With proven reliability, the unit is ideal for commercial fish farming applications but also suitable for domestic pond applications.

### Typical Application

The SOLO 1 can be secured to a wall, pole or other suitable fixing with custom designed brackets. Standard hopper size is 80L but can be configured for other sizes. Screw feed and spinner plate speeds can be adjusted by controls at the rear of the feeder.

For a timed feed & duration, the unit can be driven directly from the AC2002 controller available from Aquaculture Equipment. This will allow flexible feeding and interval times together with dusk/dawn enable.

### Specifications

Pellet Feed Size Range	4-10 mm
Power Supply:	12VDC (24VDC available)
Ambient Temperature:	-10 to +40°C
Current Rating	2A @ 12VDC
Capacity	80 litres (other sizes on request)
Spread range	2-7 mtrs adjustable
Cable length (standard)	5 M twin(other length on request)
